

COLOR ACCESSIBILITY

It's important that our communications are accessible to all. This page includes approved color combinations that meet accessibility standards. When choosing typography and background colors, always promote visibility and legibility by ensuring sufficient contrast.

These contrast ratios of text and background color combinations meet the level AA standards of the Web Content Accessibility Guidelines (WCAG) 2.1 guidelines.

Use an online tool such as the Adobe Color Contrast Analyzer (color.adobe.com/create/color-contrast-analyzer) to check the contrast ratios.

Dark blue text on white background	Dark red text on white background	Blue text on white background
White text on dark blue background	White text on dark red background	White text on blue background

Black text on yellow background	Dark blue text on yellow background
Black text on light yellow background	Dark blue text on light yellow background

Text 18pt and above / 14pt bold and above

Large/bold white text on red background	Large/bold red text on white background	Large/bold white text on light blue background
